Entry deadline: Thursday 12:00 p.m.

Judging: Thursday at 3:00 p.m., **open or closed judging at judge's discretion**

**Premiums: 1<sup>st</sup> \$5.00, 2<sup>nd</sup> \$4.00, 3<sup>rd</sup> \$3.00**

## RULES AND REGULATIONS

1. Please enter flower entries on a separate entry form (i.e. separate from other classes such as home arts).
2. Entries are welcome from members of garden clubs and the general public.
3. Exhibitors must bring glass containers to display cut flowers.
4. Judging will be done on individual merit. Absence of competition will not be accepted as justification for awarding a high prize for inferior quality.
5. Do not add more stems than the premium list requires or exhibit will be disqualified.
6. Entries cannot be replaced with fresh flowers until judging has been completed and superintendent shall have the right to remove any exhibits which have become unsightly.
7. No professional or anyone making a business of growing flowers for sale is allowed to show.
8. If exhibitor is a member of a garden club, this should be noted on the entry blank under "Community" so that the proper garden club will receive credits toward the "Big Sky Award" in lot.
9. Exhibits are judged on the following: 40% Quality of Material; 25% Size; 25% Color; 10% Stem and Foliage
10. Exhibitors may pick up their articles Sunday after 3:30 p.m.
11. There is no limit to the number an exhibitor may enter per class. If competition is from one exhibitor in one lot, premiums will be paid on the first place only.

**Hints to exhibitors:** If plant material is to hold up through the exhibition period, it must be cut no later than the day before it is to be exhibited. Cutting should be done about 4:00 p.m. since at that time there is the greatest amount of sugar in the leaves, and as soon the flowers are plunged in water, they take up enough to overcome any temporary wilting. Plunging stems into water at 110 Degrees F. is usually best, then set in a cool room, out of any draft and let the water cool to room temperature. This enables the flower to regain their turgidity and last much longer. Cut stems cleanly at an angle with a sharp knife and place at once in deep water. Flowers should be kept in deep water 8-12 hours or overnight. All foliage that is below the waterline should be removed. Foliage should be clean, any broken, diseased or disfigured foliage or petals removed. Flowers or branches with wood stems, such as Phlox, stocks, Chrysanthemums, should be split, crushed or pounded before being placed water and placed in a dark, cool place during the day. Exhibitors should pay close attention to grooming all exhibits by removing all dirt, spray residue, dead leaves and blooms, foliage used in arrangement, such as hosta, vegetable leaves, canna, peony, etc. should be immersed in water overnight.
